**Re: POP 8 & 9 Analytical Reports  
SCP Carlstadt Site**

Dear Mr. Basso:

In accordance with your 1 August 1989 letter, we have instructed ETC to prepare the POP 8&9 analytical reports for submittal to the Agency. The reports are being modified per Trillium's suggestions contained in their validation report. We anticipate a submittal date of 28 August 1989. One set of each analytical reports will be delivered to Janet Feldstein. Please advise if additional sets are necessary.

Concurrently, one set of the reports will be delivered to Trillium so that they may complete their validation effort and finalize their validation report. Based on a 21 August 1989 teleconference with Ms. Janet Feldstein and Ms. Pat Sheridan (of EPA Edison), each will receive a copy of Trillium's report, which should be issued in mid-to-late September.

Very truly yours,

LANGAN ENVIRONMENTAL SERVICES, INC.
